Overview

Founded in 2020, Spear Express is a dynamic, integrated logistics service provider specializing in the China – Iraq trade corridor.

Our mission is to simplify and optimize global supply chains by offering end to end freight solutions from cargo pickup at the source in China to final delivery in Iraq. With a robust presence in both markets, we combine modern technology, deep local expertise, and a customer first approach to deliver reliable, cost effective logistics services.

Mission & Vision

Mission

To empower businesses by delivering seamless, secure, and efficient logistics solutions that integrate cutting edge technology with unparalleled local market insight.

Vision

To become the premier logistics partner in the China–Iraq corridor, continually driving innovation and setting industry standards in global freight management.

Our Story & Growth

Spear Express was established in 2020 with a clear goal: to simplify logistics between China and Iraq. What began as a small operation with big ambition quickly turned into a trusted logistics brand built on reliability, transparency, and speed.

We started with a single warehouse and a handful of clients, but through consistency and commitment, we grew expanding our services, team, and technology. Today, we operate dedicated air and sea cargo warehouses in China, a full office and warehouse in Erbil, and offer advanced tracking systems to ensure full visibility.

Our growth story is shaped by strong relationships, local expertise, and a deep understanding of what businesses need to succeed. Spear Express continues to move forward connecting more companies, serving more regions, and delivering confidence with every shipment.

Technology & Tracking

We leverage advanced logistics management systems and real-time tracking tools to provide full visibility across the entire supply chain. Our digital platform allows clients to:

- Monitor shipments in real time.
- Access comprehensive logistics data and analytics.
- Receive proactive updates and alerts at every stage.

By integrating smart tracking technologies, we enhance operational efficiency and provide our customers with a seamless logistics experience.

Expanding connections,
driving growth.

Core Services

Air Cargo

Fast, secure air freight solutions for high value or time sensitive shipments. Our network connects major Chinese airports to key hubs in Iraq, ensuring expedited delivery and real-time tracking.

Sea Cargo

Cost-efficient ocean freight services offering both Full Container Load (FCL) and Less Than Container Load (LCL) options from top Chinese ports to strategic Iraqi ports such as Umm Qasr and Basrah.

Land Cargo

Efficient overland transportation across Iraq, ensuring reliable last mile delivery and seamless inland distribution.

Customs & Duty Clearance

Expert management of all customs documentation and compliance procedures in both China and Iraq to minimize delays.

Inspection & Quality Control

Comprehensive inspection services that verify cargo integrity and ensure safety throughout transit.

Purchasing & Procurement Support

End to end sourcing support that connects clients directly with trusted Chinese suppliers, streamlining the purchasing process and reducing overhead.
